

Probst Block Grabs

Probst Block Grabs lighten the load when lifting and moving large blocks, boulders, stone, pavers, kerbs and precast concrete when landscaping and building. Just attach to a loader, excavator, skid steer or tractor, with a capable lifting capacity and you're ready to lift.

Specifications

- The Probst grab is mechanical and doesn't require coupling with hydraulic lines. It is easy to attach to hoists.
- Large grip width adjustment with loss proof, spring loaded locking bolt. Bolt cannot get lost
- Lifting eye for attaching to crane hook
- Automatic release for the switch over from "grip" to "release"
- Cost effective, high wear resistant rubber grippers that can be easily replaced
- Designated grab handles to safely position blocks
- Can be mounted on the loader with hydraulic rotator (links and rotator optional)
- Optional HVA height adjustment support available

Technical Information

Model	TSZ-UNI	FTZ-UNI-15	FTZ-MAXI-25	FTZ-MAXI-50
Gripping range:	50— 600 mm	0 – 750 mm	200 – 1,200 mm	400 – 1,250 mm
Inside height:	185 mm	255 mm	255 mm	240 mm
Gripper length:	350 mm	420 mm	420 mm	720 mm
Working load limit:	600 kg	1,500 kg	2,500 kg	5,000 kg
Dead weight:	31 kg	85 kg	132 kg	260 kg
Surface protection:	Galvanised	Galvanised	Galvanised	Galvanised
